 aizahumayun

SUMMARY

React and MERN Stack Developer with nearly 1 year of hands-on experience, most recently as a Software Engineering Intern at **Systems Limited**, delivering enterprise web applications. Strong foundation in **React.js, TypeScript, JavaScript, Node.js, Express.js, MongoDB, REST APIs**, and **responsive UI engineering**. Experienced in **component-based architecture, API integrations, authentication workflows**, and **Agile development practices**. Passionate about building scalable, high-performance applications and delivering exceptional user experiences.

TECHNICAL SKILLS

Frontend:	React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit, Responsive Design, Sass, SCSS
Backend:	Node.js, Express.js
Database:	MongoDB
API Development:	REST APIs, API Integration, Authentication & Authorization
Tools:	Git, GitHub, VS Code, Postman
CMS:	WordPress, Elementor
Practices:	Component-Based Architecture, Debugging, Agile/Scrum, Code Reviews

CORE COMPETENCIES

React Development • MERN Stack Development • Frontend Engineering • UI Development • REST API Integration • Performance Optimization • State Management • Responsive Web Development • Clean Code Practices • Problem Solving • Team Collaboration

PROFESSIONAL EXPERIENCE

Systems Limited | Software Engineering Intern | Jan 2026 – Jun 2026

- Developed and maintained React-based features for enterprise business workflows using the MERN stack.
- Built reusable React components and integrated REST APIs to connect frontend interfaces with backend services.
- Developed backend modules using Node.js, Express.js, and MongoDB, including JWT-based authentication and data-management functionality.
- Debugged application issues and participated in code reviews, Agile ceremonies, and collaborative development with the engineering team.

EXD Software House | JavaScript Full Stack Trainee (NAVTTTC) | Sep 2025 – Feb 2026.

- Completed an intensive, NAVTTTC-certified training program in JavaScript Full Stack Development.
- Built responsive frontend applications using React.js, HTML, CSS, and JavaScript through hands-on cohort projects.
- Built and connected REST API backends using Node.js, Express.js, and MongoDB for full-stack training projects.
- Practiced Git/GitHub workflows and component-based development throughout the training program.

Interns Pakistan | Web Development Intern | Feb 2024 – Mar 2024

- Built responsive web interfaces using HTML, CSS, and JavaScript for client-facing websites.
- Customized and maintained client WordPress websites through theme and plugin configuration.
- Strengthened UI/UX design, collaboration, and problem-solving skills through hands-on client project assignments.

SELECTED PROJECTS

Full-Stack E-Commerce Platform | React, TypeScript, Node.js, Express.js, MongoDB

- Developed a complete MERN-based e-commerce solution featuring JWT authentication, product catalog management, a persistent shopping cart, and a RESTful API layer connecting the React/TypeScript frontend to a MongoDB-backed Express server.

Themeable Dashboard | React, TypeScript, Tailwind CSS

- Designed a scalable dashboard with a reusable React and Tailwind CSS component library, supporting dynamic light/dark theme switching and fully responsive layouts across breakpoints.

AI-Powered Rehabilitation System (Final Year Project) | Python, CNN, RAG, Flutter

- Built an intelligent rehabilitation platform combining a CNN model for injury severity analysis with a RAG-based recommendation engine to generate personalized exercise plans, paired with a Flutter app for patient progress tracking.

EDUCATION

BS Computer Science | CGPA: 3.33/4.00
Lahore College for Women University, Lahore
2021 – 2025

CERTIFICATIONS

Front-End Professional Certificate, Coursera (Meta)	Apr 2026
Tailwind CSS, Coursera(SCRIMBA)	Jul 2025
Frontend Web Development-HTML, Great Learning	Jun 2023
